

### About the Course

The Substance Use Issues & Community Work (QQI Level 5) is designed to promote good practice among those who work (paid/voluntary) with young people and communities who are affected and impacted by various issues.

It provides a critical perspective on some of the issues that affect young people and communities and encourages the development of coherent responses at individual and organisational level.

Together the components should promote the ability of learners to work safely and effectively in youth and / or community work settings.

The programme also aims to provide the participants with the necessary knowledge & skills in sourcing and/or resourcing applicable supports systems both within and outside their communities.

**Graduates will receive  
QQI Level 5 Certification  
(on completion)**

**In association with**

[www.corkcitypartnership.ie](http://www.corkcitypartnership.ie)

**What a 2017 course graduate said;**

*"I thought the group work or student led learning exercises were invaluable, as already you're working together in the spirit of collaboration, which is hopefully what community work is all about."*

This course  
is funded  
by  
HSE

QQI Level 5
