

About the Course

The Substance Use Issues In Youth & Community Work (QQI / FETAC Level 5) is designed to promote good practice among those who work (paid/voluntary) with young people and communities who are affected and impacted by various issues.

It provides a critical perspective on some of the issues that affect young people and communities and encourages the development of coherent responses at individual and organisational level.

Together the components should promote the ability of learners to work safely and effectively in youth and / or community work settings.

The programme also aims to provide the participants with the necessary knowledge & skills in sourcing and/or resourcing applicable supports systems both within and outside their communities.

**Graduates will receive
QQI / FETAC Level 5 Certification
(on completion)**

In association with
